ABOUT THE VINEYARD COLLECTION

Challenging convention with unique winemaking styles and practices, the Vineyard Collection is a meld of opportunistic viticulture and modern winemaking practices producing exceptional varietal examples. Once harvested, the grapes are handled with special care and attention to ensure that the distinct characteristics of each vineyard are retained. Only small volumes of Vineyard Collection will be produced each vintage due to stringent selection criteria and the boutique nature of the vineyard the grapes are selected from.

VINIFICATION

The grapes used to produce our delicate unwooded Chardonnay are hand selected and harvested at their optimum to ensure superior quality. With no oak contact, the fruit was handled carefully to maintain natural fresh flavours. The fruit was pressed and only the free run juice was retained to subsequently cold settle. It was then racked off its lees and fermented under refrigeration with a selected yeast before early bottling to preserve the flavours.

THE WINE

This wine shows enlightened varietal aromas of gooseberry, melon and citrus. The unwooded style shows the pure lifted fruit without the influence of oak. This wine has elements of delicacy upfront and has a generous mid palate with a fresh, crisp finish.
